Subject: Revised Mandatory Guidelines FR DOCKET 04-7984.

I am writing this e-mail to you regarding the proposed new rules around drug testing in the workplace for federal employees. I want to express my concerns about equating the inability to pee with a refusal to pee. As an individual who has suffered from paruresis for over 30 years this is a very important issue to me. The shy bladder syndrome would prevent me from urinating in front of someone, for any reason.

I would instead request MANDATORY use of oral fluid, hair, or sweat tests for anyone who requests them, but especially for those, like myself, who suffer from paruresis.

Thank you,

Best regards,

Jim Schmaus
